Excerpt from An Essay on Percy Bysshe Shelley The circumstances under which the following Essay was first published in 1852 were so far unfortunate as that a speedy limit was put to its circulation by the discovery that the letters which it ushered into the world were a literary fraud. But if ever the doing of evil is to be excused because of some resultant good, here is a case which is eminently entitled to such consideration, for we may fairly conclude, and not without a touch of humour, if not also without a tremor of anxiety, that if the fraud had not been perpetrated the essay might never have been penned. Equally fortunate was the fact that some few copies escaped the control and the recall of the publisher, which however were so few that the book is now one of those optima spoila that collectors covet and dealers delight in. For if the letters were spurious and worthless the essay was genuine and most valuable. It was surely by some occult and happy inspiration that the writer treated his subject both broadly and deeply, not toying with the handful of letters, but passing to their supposed author and taking the opportunity to analyse his genius and to vindicate his character. So ably was this done, with such keen appreciation of intellectual qualities and such generous discernment of moral probabilities, that the essay must always remain essential alike to the students of Browning and of Shelley, and deserves to stand both as a prologue to the writings and as an epilogue to the life of Shelley.
