Fox Chapel Publishing. Paperback / softback. Book Condition: new. BRAND NEW, Metal Lathe for Home Machinists, Harold Hall, Metal Lathe for Home Machinists is a project-based course that provides a complete introduction to the lathe and lathe metalworking. It assumes no prior knowledge and works through the process of using a lathe from beginning to end. The reader advances through a series of practice projects that teach how to use the lathe and develop essential skills through practical application. The book takes beginners through all of the basic techniques needed to tackle a wide range of machining operations. A getting started section reviews the necessary tools and equipment. Twelve lathe turning projects are provided that provide the opportunity to develop confidence and become an accomplished home shop machinist. Each project is designed to develop essential lathe skills that the reader will use again and again. All of the projects are extensively illustrated, and full working drawings accompany the text. The book advances from basic projects to higher levels of difficulty as the course progresses, taking the reader from a simple surface gauge, specially designed to provide basic turning, to a milling cutter chuck where precision and concentricity is vital. After completing this course the reader will have amassed a wealth of practical skills and a range of useful workshop tools and equipment. Lathe owners with more advanced skills will also discover new techniques. The wide range of projects provides items that are both interesting to make and useful in the workshop, including a cylindrical square, a between-centers test bar, hole and distance gauges, tailstock die holders, precision tapers, screw jack, two wheel knurling tool, mill drill spindle and more. Buyers of this book not only get a training manual on using the lathe, but also receive practical instruction on how...
