RareBooksClub. Paperback. Book Condition: New. This item is printed on demand. Paperback. 32 pages. Original publisher: Maxwell Air Force Base, Ala. : Air War College, Air University, 1999 OCLC Number: (OCOLOC)53403742 Subject: Military engineering -- United States. Excerpt: . . . 10 DOCTRINE ( MAYBE ), STRATEGY ( NO ) tasks undertaken are part of the base CES installation disaster preparedness program. The office responsible for planning and training for air base recovery after an attack is the CES, which is buried with the civil engineering organization. Historically, the focus of base disaster preparedness programs has been on natural disaster recovery, nuclear de-contamination, shelter building, and shelter maintenance as well as on providing protection to base personnel from any chemical or biological incident. A primary mission of the Civil Engineering Readiness Flight is to train personnel in other organizations to help a base recover after disaster strikes. Further, the civil engineering officers set the training standards by which others on the base are trained to implement base recovery in the wake of an attack or natural disaster. Air Force guidance documents specify the role of the base civil engineer in even greater detail. For example, AFI 32-4001, Disaster Preparedness Planning and Operations, states that disaster preparedness planning, as it relates to major accidents, natural and man-made disasters, and enemy action, is to be accompanied by the base civil engineer. The document also states that those individual civil engineer units on each base have the responsibility to establish their individual nuclear, biological, and chemical contamination-control capability in the event of a disaster. All base units are directed to ask for assistance from the Civil Engineering Squadron Readiness Flight since they plan, manage, and operate their contamination-control teams in such emergencies. Each base's readiness flight is also responsible for training of...
