BiblioGov. Paperback. Book Condition: New. This item is printed on demand. Paperback. 22 pages. Dimensions: 9.7in. x 7.4in. x 0.1in.GAO discussed the Korean Fighter Program (KFP), specifically Koreas aerospace industrial goals and plans. GAO found that: (1) Koreas coproduction program was intended to meet Koreas military modernization requirements and play an important role in Koreas aerospace industrial development goals; (2) the Department of Defense (DOD) inhibited Koreas negotiating position and took steps to make certain technologies unavailable for licensed production; (3) the Korean aircraft industry had limited experience compared to the level of manufacture and production management contemplated under KFP; and (4) the production arrangement negotiated between Korean and U. S. contractors was intended to maximize technology transfer and the industrys control over KFP. GAO also found that: (1) Korea has attempted to maximize the quantity of aircraft it can produce under license and minimize the quantity of aircraft it purchases directly from the United States; (2) DOD provided the Korean government with a list of items that Korea could not produce, but had to purchase through foreign military sales; and (3) the Korean government imposed special offset guidelines for fighter aircraft competition, but it could not determine the technology transfer and economic effects of the offsets. This item ships from La Vergne,TN. Paperback.
